

SUSPECTED ADVERSE DRUG REACTION REPORTING FORM

For VOLUNTARY reporting of ADRs by Healthcare Professionals

INDIAN PHARMACOPOEIA COMMISSION (National Coordination Centre-Pharmacovigilance Programme of India)

Ministry of Health & Family Welfare, Government of India, Sector-23, Raj Nagar, Ghaziabad-201002

PvPI Helpline (Toll Free) : 1800-180-3024 (9:00 AM to 5:30 PM, Monday-Friday)

Initial Case ☒		Follow-up Case ☐		FOR AMC / NCC USE ONLY																																																																															
A. PATIENT INFORMATION *				Reg. No. / IPD No. / OPD No. / CR No. :																																																																															
1. Patient Initials: A.R.		2. Age or date of birth: 42yrs		AMC Report No. :																																																																															
3. Gender: M ☐ F ☒ Other ☐		4. Weight (in Kg.) 62kg		Worldwide Unique No. :																																																																															
B. SUSPECTED ADVERSE REACTION *				12. Relevant investigations with dates :																																																																															
5. Event / Reaction start date (dd/mm/yyyy)		22/08/2026		13. Relevant medical / medication history (e.g. allergies, pregnancy, addiction, hepatic, renal dysfunction etc.)																																																																															
6. Event / Reaction stop date (dd/mm/yyyy)																																																																																			
7. Describe Event/Reaction management with details, if any On 22/08/2026, the patient developed generalized erythematous skin rash associated with itching and mild facial swelling after approximately four days of treatment with amoxicillin/clavulanic acid. The suspected medication was discontinued following medical evaluation. The patient was monitored and treated symptomatically. No respiratory distress, hypotension, loss of consciousness or mucosal involvement was reported. Following withdrawal of the suspected medication, the skin rash and itching gradually improved and the patient was recovering.																																																																																			
C. SUSPECTED MEDICATION(S) *				14. Seriousness of the reaction : No ☐ if Yes (please tick anyone)																																																																															
				☐ Death (dd/mm/yyyy) ☐ Congenital-anomaly ☐ Life threatening ☐ Disability ☐ Hospitalization-Initial/Prolonged ☐ Other Medically important																																																																															
C. SUSPECTED MEDICATION(S) *				15. Outcome:																																																																															
				☐ Recovered ☐ Recovering ☐ Not Recovered ☐ Fatal ☐ Recovered with sequelae ☐ Unknown

* Mandatory Fields for suspected ADR Reporting Form

ADVICE ABOUT REPORTING

A. What to report?

All adverse events should be reported

Report non-serious, known or unknown, frequent or rare adverse drug reactions due to Medicines, Vaccines & Herbal Products.

Report every serious adverse drug reactions. A reaction is serious when the patient outcome is :

- Death
- Life-threatening
- Hospitalization (initial or prolonged)
- Disability (significant, persistent or permanent)
- Congenital anomaly
- Report intervention to prevent permanent impairment or damage

NOTE : Serious/Adverse Event following immunization can also be reported in Serious AEFI case Notification Form available on <http://www.ipc.gov.in>

B. Who can report?

All healthcare professionals (Clinicians, Dentists, Pharmacists and Nurse etc.) can report adverse drug reactions

C. Where to report?

Duly filled in Suspected Adverse Drug Reaction Reporting Form can be sent to the nearest Adverse Drug Reaction Monitoring Centre (AMC) or directly to the National Coordination Centre (NCC) for PvPI.

Call on Helpline (Toll Free) 1800 180 3024 to report ADRs or directly mail this filled form to pvpi.ipc@gov.in

A list of nationwide AMCs is available at : <http://www.ipc.gov.in>, http://www.ipc.gov.in/PvPI/pv_home.html

D. What happens to the submitted information?

Information provided in this form is handled in strict confidence. The causality assessment is carried out at AMCs by using WHO-UMC scale. The analyzed forms are forwarded to the NCC-PvPI through ADR database. Finally the data is analyzed and forwarded to the Global Pharmacovigilance Database managed by WHO Uppsala Monitoring Centre in Sweden.

The reports are periodically reviewed by the NCC-PvPI. The information generated on the basis of these reports helps in continuous assessment of the benefit-risk ratio of medicines.

The Signal Review Panel of PvPI reviews the data and suggests any interventions that may be required.

E. Mandatory fields for suspected ADR Reporting Form (*)

Patient initials, age at onset of reaction, reaction term(s), date of onset of reaction, suspected medication(s) & reporter information.
